DESCRIPTORS: Electric potential, *Nerves, *Spinal cord, Neurons, Neuromuscular transmission, *Bioelectronics.

The electronic potential (ETP) of degenerating dorsal roots of spinal nerves was studied to clarify which part of the axon produced the ETP of the dorsal root. The sixth or seventh lumbar dorsal root in cats was cut between the spinal cord and spinal ganglion. The ETP was (Biological Sciences--Physiology, TT, v. 11, no. 6) (over)
